Revista Latina de Comunicacion Social - Coverage in Elsevier product(s)

Dear Sir / Madam,

Elsevier is pleased to inform you that coverage of the above-mentioned titles in selected Elsevier product(s) will be continued in 2016 and therefore we would like to renew our existing subscriptions.

With scientific output rapidly growing throughout the world, coverage in Elsevier product(s) increases dissemination of authors' and editors' work. Elsevier products, which are used by leading research institutions and decision-making (funding) bodies, adhere to a formal content selection procedure and therefore inclusion of your titles is an acknowledgement of their quality. We look forward to continued cooperation in which coverage in Elsevier products increases additional traffic to individual articles, promotes title brand awareness, and provides added exposure and profile to authors, editors as well as your publishing organization.

Although we require access to the full-text of your publications for indexing and extraction purposes ([e.g. to](#) capture keywords, affiliations and references etc), we never provide the full-text to our users or other third parties. Using sophisticated linking technology, we always refer our users back to your online platform to access the full-text or to view purchasing information (depending on the users' subscriptions).

We seek permission to continue coverage of your titles in selected Elsevier products and request you to complete and sign the attached Coverage Form. Please return a copy per email, fax or surface mail.

If you would like to know in which Elsevier products your publications are covered, then please feel free to contact us bd-scm@elsevier.com. We request you to notify us of any changes with respect to the given title(s) such as changes in publisher, title, ISSN, EISSN or frequency or if the title has ceased publication.

Thank you in advance for your cooperation and I look forward to hearing from you.

Yours sincerely,

Monique Berkhof
General Manager E-Operations Amsterdam
Elsevier B.V.
Radarweg 29
1043 NX AMSTERDAM
The Netherlands

* Elsevier product(s) include among others **Scopus** (www.info.scopus.com), **EMBASE** (www.info.embase.com), **Engineering Village** (www.ei.org) and **Reaxys** (www.info.reaxys.com). For an overview and details of other Elsevier products please visit www.elsevier.com.
