Title: Revista Latina de Comunicacion Social

ISSN / E-ISSN: / 1138-5820

Publisher: Universidad de La Laguna

Dear Concha Mateos,

The title mentioned above has been evaluated for inclusion in Scopus by the Content Selection & Advisory Board (CSAB). The review of this title is now complete and the CSAB has advised that the title will be accepted for inclusion in Scopus. For your information, the reviewer comments are copied below:

For a journal that describes itself as "on the highest impact level of Spanish communication journals," citations to papers published here are sparse, which is somewhat unexpected because the papers are generally quite good. On balance, the quality of the content justifies inclusion in Scopus, but I urge the editorial team to improve the journal's accessibility, for example, with a more attractive webpage.

If necessary, our Source Collection Management department will contact the publisher in order to set up the content feed for Scopus.

The title will be loaded in Scopus as soon as we have access to the title and the content has been processed for indexing. At this moment, there is no further action required from your end.
